

Corporate Safety Commitment Policy

Corporate Safety Commitment Policy

A.E.I.S is to provide drilling services that are vital to enhance a vibrant Nigerian economy, and in doing so, we will conduct our business in a manner that protects the communities where we live, work and play. The health and safety of our employees and their families, our neighbors and the communities where we operate are among the highest priorities for our company. Safety and environmental responsibility are an integral part of our culture, and these values drive improved quality in every aspect of our operations.

A.E.I.S commitment is to comply with all occupational health, safety and environmental laws and develop the best feasible operating procedures, technologies and policies. In addition, A.E.I.S expects that each employee will have this same commitment to safety excellence.

As a forward-looking company, A.E.I.S will work closely with clients and suppliers to implement our QA/HSE program and enhance our culture of outstanding HSE performance. This commitment is to play a significant part in our success.

Our goal is to set safety achievements and receive recognitions from customers and industry authorities. With support from management and employee involvement, innovative solutions to safety challenges, injury and illness rates lower than the average for their industries, and substantiation of the benefits of the safety process. Our performance will be a result of contributions from every one of our Nigerian employees.

We will strive to achieve exceptional and sustainable HSE performance throughout our company, where everyone goes home safe and sound every day. We are committed to, and expect continuous improvement in all our HSE Endeavors.
