Nigerian Content Plan and Policy

In line with Government's directive on local participation in oil and gas activities. AEIS is owned 70% by Nigerians and the workforce is made up of over 90% Nigerians.

It is AEIS policy to train and re-train its workforce. We believe that it is cheaper to train the staff and place them in a position to deliver results, rather than to not train them and we all fail in achieving our collective objectives. By adopting this policy we are also preparing young Nigerians to take up greater responsibilities in future.
